Please see attached

3. What is the current number of employees working for your firm, will you be hiring to perform this work, will this contract spread your work force and resources thin?

Please see Employee list

4. Provide a standard detail worksheet assignment for an average day dealing with multiple sites without compromising the maintenance.

Please see Exhibit A.

5. How many field crews does your firm intend to assign to each site, each day and how do you plan to meet the City's contract for completing all work that is required?

The work plan shall include manpower, equipment, and time spent per day/week/month or as described in the contract, supervision, irrigation tech, and any specifics per the City's specification. Failure for the contractor to have proper manpower and resources will disqualify the bidder. The Landscape Maintenance Manager (LMM) has ultimate say, if proper resources are available by the contractor to meet the expectations of the contract by reviewing your work plans before the contract is awarded. In all cases, if the LMM determines that the contractor has not met the requirements, the contractor **will not** be awarded the contract or after the contract is awarded the contractor can be placed in **default**. It is the upmost importance that the contractor has significant amounts of manpower, resources, and materials to meet every level of this contract and comply fully with the seasonal, monthly, weekly and daily task. There will be no exceptions, and no excuses.
